

Waite Park Chamber Host Spotlight

Restoration Professionals hosted the Waite Park Chamber meeting on Wednesday, September 21, 2011. Restoration Professionals specializes in residential, commercial, and industrial restoration providing services for water or fire damage, mold, construction, and carpet and upholstery cleaning. Providing 24-hour emergency response, Restoration Professionals assists with emergency planning and can often dispatch a crew to a site within an hour of the initial call.

When dealing with water damage, the technicians at Restoration Professionals use state-of-the-art truck mounted water extraction equipment and can remove any damaged contents immediately. While cleaning, packing, and safely storing all valuables, the technicians extract all standing water, remove and replace damaged carpeting and pad, assess the spread of moisture inside and out, repair or replace what the water has damaged, and dry the structure to prevent mold growth.

After a fire, Restoration Professionals helps put the pieces back together by working with property owners, insurance companies, and police and fire departments to safely secure the structure. Belongings are relocated and cleaned, deodorized, and stored safely. Other services provided include debris clean-up, eliminating standing water, demolishing unsalvageable areas, and rebuilding.

If mold is present, Restoration Professionals identifies the source of moisture, evaluate the need for mold testing, and remediate the area. Certified technicians clean, dry, and replace affected surfaces and structural elements while removing contaminated materials.

Restoration Professionals also specializes in construction, from emergency demolition and reconstruction to remodeling to new construction. The cleaning division is more than just removing a spot from carpeting. They use state-of-the-art truck-mounted equipment to clean residential, commercial, and industrial properties. All cleaning technicians are certified by the Institute of Inspection Cleaning and Restoration and are easily identified by their vehicles and uniforms. Restoration Professionals also cleans apartment or condominium common areas, apartment units, office buildings, light industrial buildings, and parking structures.

Contact Restoration Professionals for 24 hour response at (320) 229-1990 or www.restpro.com.
